Subject: MSIS STRUCTURAL FAILURE REPORTS

The forwarded E-mail provides insight regarding a forthcoming change to the MSM regarding reporting of Class 3 structural failures. Please distribute this to inspection department personnel for immediate implementation.

Subject: MSIS STRUCTURAL FAILURE REPORTS

Several of your Marine Inspectors are faithfully reporting all Class 1, 2, and 3 structural failures as per MSM Vol II 5.G.2. I just verified with G-MCO-2 LT Hoon (202-267-1464) that they are no longer tracking Class 3 failures and will distribute guidance soon to eliminate the requirement to report them.

LT Hoon said that they are doing nothing with the Class 3 reports and agreed with me that field units should discontinue reporting at this time. You are all required to report all Class 1 & 2 failures.

Please pass this information on to your Marine Inspectors. Thanks.
